

LIQUIDLINE®

## Brew'd

Nitro Coffee counter  
top dispenser

**No sugar, gluten or dairy**  
**16 calories per serving**  
**Totally organic**

Take advantage of cold brew technology and offer a velvety soft, creamy brew to your customers or staff from the first to the last pour, a perfect solution for your bar, restaurant, hotel or workplace.

Nitro brew is much smoother than traditional coffee. With a hint of chocolate flavours the tastes are much improved from traditional iced coffees and to enhance your experience, you'll be welcomed with a smooth, foamy top.

Ventilation	Allow 5cm either side of unit

## WHY NITRO?

- The nitrogen infusion eliminates sour flavours and reduces acidity offering a smooth velvety taste
- Nitrogen-infused cold-brew coffee is the latest cafe culture trend. Keep up-to-date with this new and exciting innovation
- No refrigeration required - ambient storage
- No sugar, no gluten, no dairy, only 16 calories
- One glass of nitro coffee contains as much caffeine as 2 cans of the leading energy drink - now that's a serious caffeine kick
- Brew'd has been selected by Twitter as their office cold brew coffee provider
