## Brew'd

Nitro Coffee counter  
top dispenser

No sugar, gluten or dairy  
16 calories per serving  
Totally organic

**Take advantage of cold brew technology and offer a velvety soft, creamy brew to your customers or staff from the first to the last pour, a perfect solution for your bar, restaurant, hotel or workplace.**

Nitro brew is much smoother than traditional coffee. With a hint of chocolate flavours the tastes are much improved from traditional iced coffees and to enhance your experience, you'll be welcomed with a smooth, foamy top.

### REQUIREMENTS

Electrical	13 amp/333W
Ventillation	Allow 5cm either side of unit

### WHY NITRO?

The nitrogen infusion eliminates sour flavours and reduces acidity offering a smooth velvety taste.

- Nitrogen-infused cold-brew coffee is the latest cafe culture trend. Keep up-to-date with this new and exciting innovation
- No refrigeration required – ambient storage
- No sugar, no gluten, no dairy, only 16 calories
- One glass of nitro coffee contains as much caffeine as 2 cans of the leading energy drink – now that's a serious caffeine kick
- Brew'd has been selected by Twitter as their office cold brew coffee provider
