

Vitale

Bean-to-cup
coffee system

Cutting edge design
Versatility
Ease of use

All combine to create the Vitale - the most compact Café BONté bean-to-cup drinks system available.

The Vitale opens the door to a new world of coffee experiences for the smaller, lower use environments. With its chrome-plated backlit selection buttons, this extremely small unit makes a big hit.

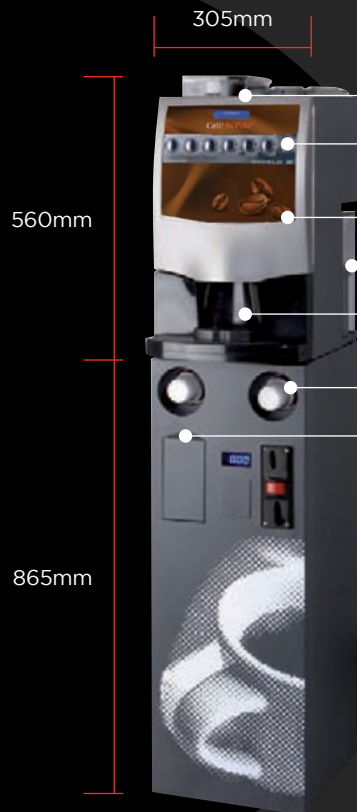

A scale inhibiting filter is installed with the unit therefore enhancing the quality of drinks. There are 7 selection options and 6 drinks menus to choose from.
