Zenith

Coffee Bean Grinder

The Zenith espresso coffee bean grinder works with high precision to grind your beans directly and efficiently.

The Zenith is equipped with programmable buttons for single or double espressos. Handling, cleaning and servicing is smooth. This model has many innovative features including the ability to set up pre-ground portions. Technology uses digital control of timed doses to ensure freshness of coffee and precise control over dispense times. The Zenith grinder is hard to beat, and is the best on the market.
