

Cafétouch

CT8 CAFÉTOUCH

Touchless Bean to cup

Compact, elegant
and versatile. A high
performance machine,
perfect for any environment

Compact, elegant and packed with innovative technology, the Cafetouch 8 is the perfect bean to cup coffee machine for any environment.

Versatility is at the heart of the CT8. The 10" touchscreen has an intuitive layout and offers a step-by-step mode, giving you the ability to offer a wide range of top quality drinks, that all completely customisable. And the Drip-saver systems means the cup station is always clean after every drink.

LIQUIDLINE®

TECHNOLOGY

The Cafétouch 8 is a high performance machine packed with technology and thanks to the new Drip-Saver system, the cup station is always clean.

VERSATILITY

The Cafétouch 8 is completely versatile and can offer a multitude of drinks - from a black coffee to cappuccinos, lattes and mochas.

INTUITIVE TOUCH SCREEN

The innovative 10" Touch Screen is capable of playing videos, and has a intuitive interface, with step-by-step mode.

COFFEE GROUP

The Cafétouch 8 dispenses a single or double coffee simultaneously thanks to larger-diameter filters in the coffee group.
