

COFFEE PRIME

SCHAERER

Bean to cup

A flexible, budget-friendly coffee machine. Top-quality and mobile with easy automated maintenance and cleaning.

The Schaerer Coffee Prime delivers a full range of top-quality coffee and milk-based drinks anywhere. With a daily output capacity of 100 cups, the machine is ideal for self-service environments. Cleaning and maintenance are kept to a minimum and the intuitive user interface on the 7-inch touchscreen makes for ease of use. Thanks to its compact design and integrated fresh water tank, the Coffee Prime can be used in any location, the only requirement is a power connection.

7" TOUCHIT DISPLAY

The 7" TouchIT display panel enables users to quickly and easily select their drink and has the ability to show promotions or adverts.

AQUACHANGE

The Aquachange mechanism allows users to quickly and easily switch between using a mains water supply and the integrated tank.

EASY CLEANING

Automatic cleaning and maintenance programmes ensure the Coffee Prime is always safe, hygienic and ready to use.

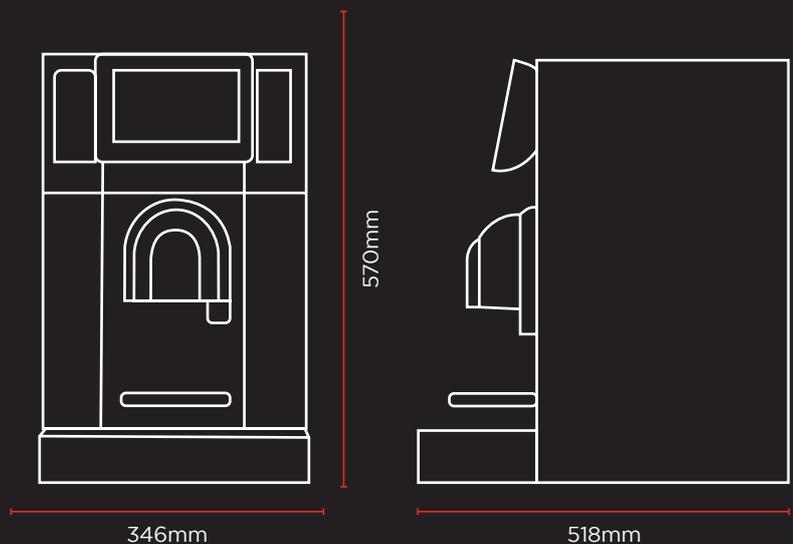

WIDE SELECTION OF DRINKS

The Coffee Prime lets you serve up to 40 top quality drink options, all prepared to each users own specification.
