

# Coffetek Neo Q

## Coffee Vending Machine

The ultimate eco-friendly workplace drinks solution, the Neo Q offers a diverse range of delicious coffee-based beverages, alongside chilled, filtered drinking water.

# Coffetek

## Neo Q

---

The cutting-edge Coffetek Neo Q is an all-in-one drinks solution that provides users with exquisite espresso-based beverages, alongside quality chilled drinking water. Engineered with sustainability in mind, the Neo Q is the ideal beverage solution for companies looking to reduce their carbon footprint.

---

### INTEGRATED WATER DISPENSER

Neo Q's integrated chilled water dispenser eliminates the need for a separate water machine in your workspace. With a sophisticated filtration system that removes impurities, and an integrated chiller, you'll enjoy pure and safe drinking water every time.

### REDUCE WASTE

Thanks to the integrated I-Detect sensor, the Neo Q identifies the presence of a reusable cup in the drinks dispense area, reducing usage of disposable cups. The integrated chilled water dispenser also promotes hydration without the need for single-use bottles.

### EYE-CATCHING DESIGN

With a sleek modern design, attractive LED lighting and an extra-large 21-inch HD touchscreen, the Neo Q garners attention.

### EXTENSIVE DRINKS MENU

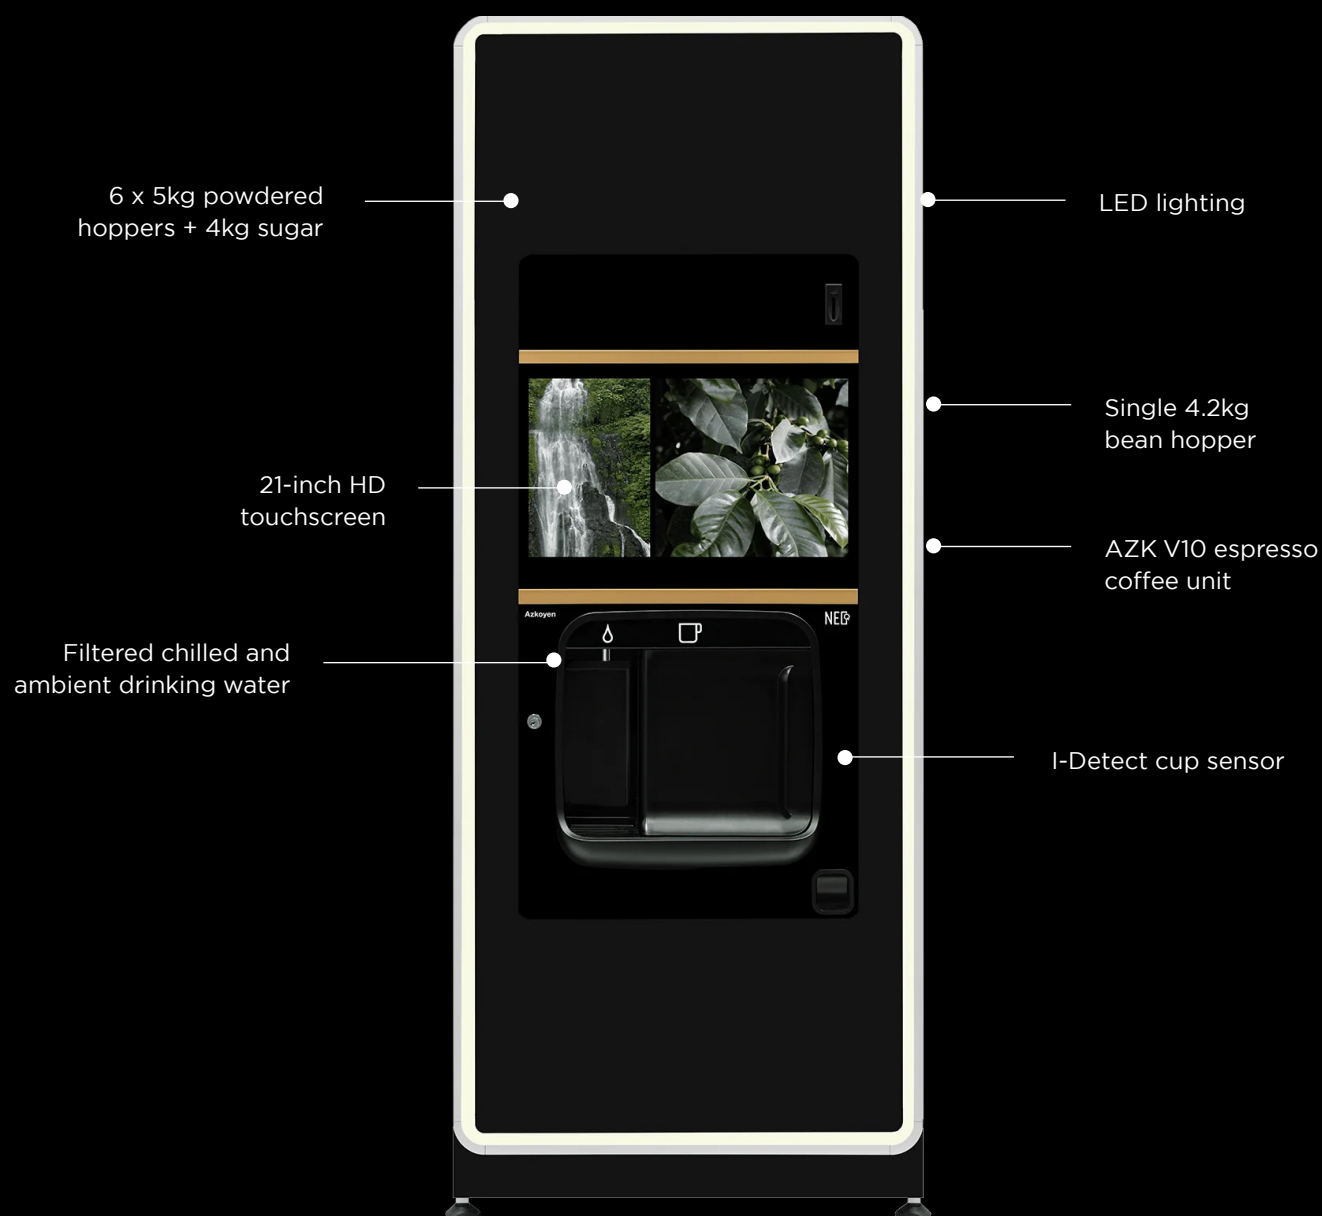

The Neo Q combines perfectly ground fresh coffee beans with powdered ingredients to offer a broad range of coffee shop favorites, as well as hot chocolate and fresh brew tea.

### INTUITIVE INTERFACE

The touchscreen interface maximises the user experience, guiding them through drinks selection with ease.

“

The Neo Q is the ideal beverage solution for companies looking to reduce their carbon footprint.”
